File Instructions

■ PROOF REQUIRED

$25.00 *(11" x 17")*

Proof is produced on specified final production device. This is the most accurate method to assure final results. Please allow adequate time for any proofing required.

■ PROOF DECLINED

I understand that various output devices may produce different results regarding color. I accept Austin Graphics' judgement on my final output.

While the basic turn-around time for Inkjet and Lightjet output is 48 hours, it can be affected by complexity and type of job, number of prints or images to be output and special finishing. Production time begins when we receive all necessary files and specifications.

Delivery time is not included in turn-around time.

Delivery can be rushed for an additional charge.

FILENAME/DESCRIPTION: _____

SIZE: Width _____ x Height _____ QUANTITY: _____ each of _____ files
